

Read Me!

Introducing Splice, our answer to the problem of joining a collection of QuickTime clips into a single movie. With a few clicks or some drag'n'drop action, you can create a compilation movie.

System Requirements

This software works best with OS X 10.9 (Mavericks).

Installation

1. Double-click the archive file you have downloaded, Splice221.zip. Open a Finder window for the Splice221 folder.
2. Read the Splice License and Splice Quick Start Guide.
3. Drag the Splice icon to the Applications folder on your disk drive. Double-Click the icon to launch program.

Purchase and Registration

Until purchased and registered, the software will function as a time-limited demo. The expiration date can be found on the Registration Panel.

Once the software expires you will no longer have unlimited access to the software's full functional capabilities. To purchase a license, visit our website at <http://www.einsteinslegacy.com> and click the "Store" link in the top right corner.

Finding More Information

While using this software , you may open the User Guide by choosing **Splice Help** (Cmd-?) from the Help menu.
