

## Acknowledgments

### Threading Building Blocks (Intel® TBB)

TBB and other open-source software available from this site is licensed under GPLv2 with the (libstdc++) runtime exception. Specifically, the TBB open-source license is the same license used by the GNU libstdc++ library in gcc 4.2.1 (and earlier). For a complete description of the license, please visit the official GNU website for GPLv2 and for the runtime exception.

### Libraw

LibRaw library, Copyright (C) 2008-2016 LibRaw LLC (info@libraw.org)  
The library includes source code from  
*dcraw.c, Dave Coffin's raw photo decoder*  
*Copyright 1997-2016 by Dave Coffin, dcoffin a cybercom o net*

LibRaw is distributed for free under two different licenses:  
GNU Lesser General Public License, version 2.1  
COMMON DEVELOPMENT AND DISTRIBUTION LICENSE (CDDL) Version 1.0
