Integrated OCR Languages:

PDF studio comes with an integrated way from the application to download and install the following languages for OCR.

5 languages that we also support for internationalization within PDF Studio:

- English
- French
- German
- Italian

- Spanish

Other European languages available through PDF Studio's OCR Languages Download dialog:

- Danish
- Dutch
- Finnish
- Norwegian
- Polish
- Portuguese
- Swedish

Additional OCR Languages:

For advanced users only, in addition to the language above, it is possible to install other languages, as long as they are Western languages that are supported by PDF WinAnsiEncoding.

So for instance, if you wanted to add the Icelandic language file, you would follow the steps below:

- Download the language file(s):
  - Icelandic
- Look for a directory called tess/tessdata on your machine
  - In PDF Studio 9, it is located under your user folder under the ".pdfstudio8" folder
  - In PDF Studio 8, it is located under the installation directory, for instance C:\ProgramData\PDFStudio8 for Windows 7, Windows Vista and Windows 8.
- Extract / Copy the files contained in the gz file into the tessdata directory:
  - For Icelandic: isl.traineddata
- Open the file called languages.xml located under the same directory in a text editor and add the corresponding entry for your new language file:
  - For Icelandic:

    ```
    <language name="isl" desc="Dutch" file="te
    sseract-ocr-3.02.isl.tar.gz" />
    ```
  - Don't worry about any other tags present in other
